The Miracles
That Occurred!

(Above) 1968 - 20 Years of Age

(Above) 1972 – 24 Years of Age

Legally Blind (Right Eye)

Rapid Vision Degeneration (Left eye)

{Occurred over a 12 month period following an out-of-control fever during a bout with severe flu epidemic in 1966}

Received manifestation of healing and perfect 20/20 vision at approximately 11AM on April 24, 1974 enjoyed for the past 43 years.

Totally Deaf (Left Ear)

{From age 4 I suffered almost constant chronic ear infections with minimal treatment by our small-town doctor who primarily prescribed a “dropper solution” and cotton in that ear. I became progressively worse, and when in the 3rd grade of school it was discovered that I was totally deaf, with subsequent ear tests provided over the course of time in school, reconfirmed deafness. In my Senior year of High School, my parents took me to a famous Ear surgical clinic, Shea Clinic of Memphis, TN where, after two days of testing diagnosed that I had no inner-ear parts remaining sustainable for any type of reconstructive surgery.}

Received temporary hearing at evangelistic meeting in 1973 lasting for a few weeks before total deafness returned.

Received manifestation of permanent perfect hearing on April 24, 1974 at approximately 2PM enjoyed for the past 43 years.

Obesity @ 225lbs

{Gained weight from 1966 -1969 until received healing of chronic obesity on April 21, 1974}

Over a six week priod, Lost 75 lbs, two shoe sizes; and went from a size 44 to size 33

Rare (Incurable) Skin Disease

{Skin condition caused by a rare form of Epidermolysis Bullosa, called “Latent Progressive Dystrophic Epidermolysis Bullosa,” for which there is no cure and is only partially managed by oral and topical medications. Protein required to build collagen that holds skin together becomes cellularly unstable causing a liquefaction of skin cells, oozing from the pours of the skin, producing a serious raw blistered “burn-like” surface primarily on the scalp, face and chest areas. An extremely painful condition when in a chronic state. 24 hours without meds, and I would appear like a monster, and with unbearable pain.}

Took my last medication for this disease on morning of April 20, 1974, and on Sunday morning, April 21, 1974, placed both oral and topical meds in the bench of the organ that I played for the church service.

Chronic Hemorrhoids (from age 16)

Received healing for condition on April 21, 1974, and they immediately disappeared, along with long-term scarring of tissue, without any symptoms for past 43 years.

Chronic Sinus Infections

{For approximately 8 years, suffered with chronic sinus infections requiring carrying several handkerchiefs regularly on a daily basis}

Haven't carried a handkerchief in 43 years with no symptoms of sinus infection and drainage.

Broken Arches

{Running track in school for 4 years, suffered the collapse of both arches. Couldn't stand for more than a few minutes without pain in the lower extremities and back}

Have been examined and found to have strong natural arch support with no pain or discomfort when standing for the past 43 years.

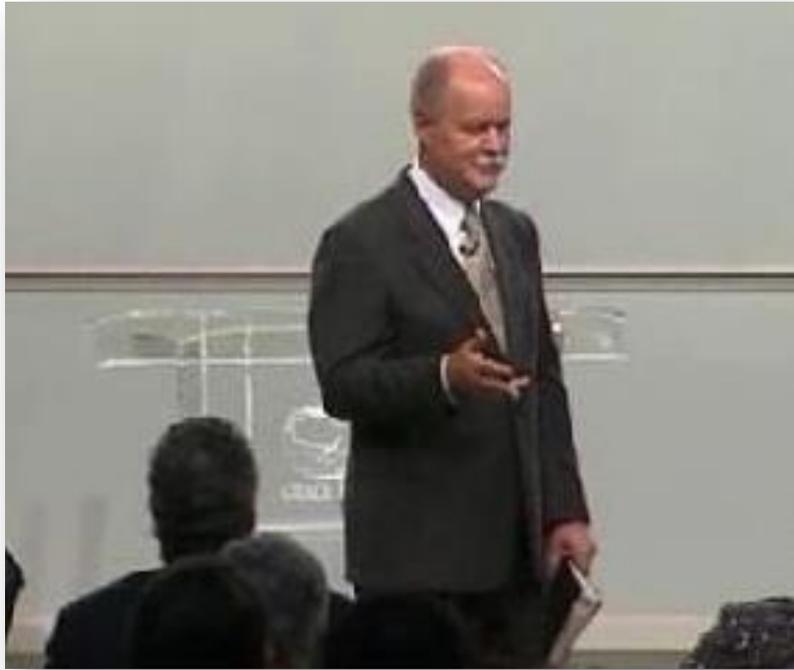

Each of the above diseases disappeared as an immediate result of receiving the healing miracles on Sunday morning, April 21, 1974

After attending a "Faith Teaching Seminar," sponsored by Charles Capps Ministries and Jerry Savelle Ministries, over the course of 3 days and nights (April 18-20), I reckoned on the revelation of teaching I received during that Seminar. From the time I came home around 10PM the night of Saturday, April 20th until sunrise the Sunday morning of April 21, 1974, I

wrestled with the implications of making a decision to accept what I had heard of the gospel of the “Word of faith.” Sitting in my home office study, gazing out the east window, as I watched the sun rise, I said “Yes and Amen” to what I had found in God’s Word. All of the above miracles occurred simultaneously during the period immediately following a quality decision to act on my faith!
