

Understanding Faith Through an Electrical Circuit & Other Spiritually Corresponding Laws of Logic

© Copyright 2022 – Dr. Don G. Pickney

1. God created the electrical “Power Circuit” (not man)! In His creative plan, he also created it as a physical equivalent of the spiritual “Power Circuit.” Both draw power from a power source. Both are designed to regulate the safety and integrity of their respective physical and spiritual energies with safeguards to protect the system of energy. From this illustration we can demonstrate the “laws of faith” and ways to release God’s power.

2. You can understand the spiritual unseen realm by its equivalent in the physical realm:

Romans 1:17,19,20 “For therein is the righteousness of God revealed from faith to faith: as it is written, The just shall live by faith. (19) Because that which may be known of God is manifest in them; for God hath shewed *it* unto them. (20) For **the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made and seen**, *even* his **eternal power** and Godhead; so that they are without excuse.”

3. The source of every miraculous work by faith comes from God’s power to the believer through the Holy Spirit. See this as the “hot wire” in our electrical diagram:

Acts 1:8 “But **you shall receive power**, after that the Holy Ghost is come upon you: and you shall **be witnesses unto (to) (of) me** both in Jerusalem, and in all Judaea, and in Samaria, and unto the uttermost part of the earth.”

Equally important in God’s miraculous equation is the part of the actions of the believer whose faith is serving as the conduit of that power (The red wire). Believing releases the flow of God’s power. Acting on what we believe, however, (our personal works or actions of faith) serves as shown in our diagram, as the ground that completes the power circuit causing it to flow. (The neutral wire that produces the ground as it reaches back to the electrical terminal and connects to the ground.) God’s power is from Heaven. Our works are physical actions of Earth. Herein is the hot wire and the ground that completes the circuit flow of power.

Quick examples:

In John 2:7-7, Jesus says to the men at the wedding feast, “Go, fill the waterpots with water. They filled them to the brim. He then said, “Go serve it to the feast.” The miracle occurred at the moment of serving it to the governor of the feast. A totally natural act of this earth done countless times by ordinary humans, filling a water pot with water. Jesus words carried supernatural power, and the “ordinary” actions of the men became the “ground,” completing the circuit. Every miracle demonstrates these components.

In John 9:7, Jesus puts mud on the eyes of a blind man and says, “Go, wash in the Pool of Siloam. The man went and washed and came seeing.” A totally natural act of this earth done. Jesus words carried supernatural power, and the “ordinary” actions of the man became the “ground,” (Neutral wire in our diagram) completing the circuit.

In Luke 5:4, Jesus instructed Peter to “launch out into the deep and let down his (shallow water) nets for a multitude of fish. When he had done so, he was overwhelmed with the successful catch of fish.

The extra ground in our diagram is for the safety and integrity of the electrical system at the point of use. Again, this is works, however, in this instance it is not works of faith, but works of righteousness:

Galatians 5:19-21 “Now the works of the flesh are manifest, which are *these*: Adultery, fornication, uncleanness, lasciviousness, (20) Idolatry, witchcraft, hatred, variance, emulations, wrath, strife, seditions, heresies, (21) Envyings, murders, drunkenness, reveling, and such like: of the which I tell you before, as I have also told *you* in time past, that **they which do such things shall not inherit (receive) the kingdom of God.**”

2Timothy 2:20-22 “But in a great house there are not only vessels of gold and silver, but also [*utensils*] of wood and earthenware, and some for honorable *and* noble [*use*] and some for menial *and* ignoble [*use*]. (21) So whoever cleanses himself [*from what is ignoble and unclean, who separates himself from contact with contaminating and corrupting influences*] will [*then himself*] be a vessel set apart *and* useful for honorable *and* noble purposes, consecrated *and* profitable to the Master, fit *and* ready for any good work. (22) Shun youthful lusts *and* flee from them, and aim at *and* pursue righteousness (all that is virtuous and good, right living, conformity to the will of God in thought, word, and deed); [*and aim at and pursue*] faith, love, [*and*] peace (harmony and concord with others) in fellowship with all [*Christians*], who call upon the Lord out of a pure heart.

Ephesians 2:10 “For we are his workmanship, created in Christ Jesus unto good works, which God hath before ordained that we should walk in them.”

Titus 2:14-15 “Who gave himself for us, that he might redeem us from all iniquity, and purify unto himself a peculiar people, zealous of good works. (15) These things speak, and exhort, and rebuke with all authority. Let no man despise thee.”

4. The SPIRIT realm is everything to do with God. The physical realm is everything to do with humankind and the universe. Spiritual Almighty God, Jehovah, (Father, Son & Holy Spirit) created the physical universe, and everything in it, and oversees it. To exercise His creative and transformative power, there has to be a juncture or intersection where both the spiritual and physical meet. Where? How?

We can see how God’s Spirit moved on the face of the waters (the very first statement interconnecting spiritual to physical; this is the link or connection between the spiritual world of God (His Spirit) and the physical world (the waters) of humankind on Earth. The

Bible opens with a clear definition of both the spirit and physical environments and a definite relationship between the two. **The spirit acts on the material**; this is the process of creation, also all “creative” transformation of the physical by the Spirit of God (usually referenced as “the supernatural”).

Exactly how the process works; we are not meant to comprehend. That is the message of Isaiah 55:

Isaiah 55:8-11 “For my thoughts *are* not your thoughts, neither *are* your ways my ways, saith the LORD. (9) For *as* the heavens are higher than the earth, so are my ways higher than your ways, and my thoughts than your thoughts. (10) For as the rain cometh down, and the snow from heaven, and returns not thither, but waters the earth, and makes it bring forth and bud, that it may give seed to the sower, and bread to the eater: (11) So shall my word be that goes forth out of my mouth: it shall not return unto me void, but it shall accomplish that which I please, and it shall prosper *in the thing* whereto I sent it.”

We see then that while we cannot comprehend the invisible process, we can work the process, not by comprehension, but by following the principles God has sent down to us through His Word as Isaiah relates. We can learn God’s divine principles laid out in Scripture.

5. Through technology we have several wonderful analogies to help us picture the wonder of the Spiritual connection to our physical lives, a **how we may utilize them without understanding how they work**.
 - A. I’m writing the words of this lesson material using a keyboard while simultaneously watching them on my monitor. I type “W” on the keyboard, and I see a “W” appear on my screen. When I hit “save,” these same **words transform into electrical impulses**, and are transported and stored somewhere on my computer, and simultaneously to a “cloud” for securing all of my files should something happen to my laptop, provided by Microsoft, somewhere in the world in the form of an electrical impulse. Where is this so-called “cloud,” and how does my saved work find this “cloud?” I don’t know, but I know how to get all of my saved work to that cloud (whatever and wherever it is).

When you, on your computer, enter www.donpickneyministries.org, you connect to a server storage area, and it sends you an INVISIBLE electrical impulse via your computer or telephone and their programs and apps. **It transforms the INVISIBLE into VISIBLE characters**, sounds, and images for you to see and hear. In every part of God’s creative influence, there’s an intimate and definite relationship between the immaterial (invisible within this natural realm to the human eye) and the material,

electrical impulses, and the visible letters, pictures, videos, etc. For example, how can a raw myriad of letters, numbers and symbols translate to a video of your family members? When they forward the video to you, it is first converted into "binary values" (a series of various 1s and 0s) attached to the pixels of your video, forming a large portion of binary data. Then once it is delivered to your computer or phone is has to be converted again, this time from the huge series of 1s and 0s (the binary data), back to pixels of picture video, audio, etc.

Computers convert text and other data into binary (using only 1s and 0s) with an assigned ASCII (American Standard Code for Information Interexchange) value. Once the ASCII value is known, that value can be converted to binary. In the following example, we take the word **hope**, and show how it is converted to binary that the computer understands.

Converting the text "hope" into binary				
Characters:	h	o	p	e
ASCII Values:	104	111	112	101
Binary Values:	01101000	01101111	01110000	01100101
Bits:	8	8	8	8
ComputerHope.com				

- B. The above illustrates how the physical world consists of both seen and unseen forces, although both are a part of the natural, physical environment we call Earth. In the Spiritual realm we find the transforming power of the Spirit of God upon physical properties (that themselves were created or converted from spiritual properties. Hebrews 11 states, "...so that the things which are seen were not made out of things which do appear."
6. In **Genesis 1:2, with the spirit of God moving on the face of the waters, we have an incredible statement** when we stop to meditate on it. Though understood of the physical realm, there is the transformation of invisible electric impulses into visible dots on a screen that form readable letters, images, and listenable sounds. There is a juncture when the visible letter becomes an invisible wave and vice versa. You might've never made the connection, but when God's spirit touches the physical, there's a definite interconnection between the two.

A. With that in mind in Genesis 1:2, we have the first appearance of the Biblical Hebrew word *ruach*, which is translated *spirit*.

Let's see what Strong's Concordance has to say.

H7307. רוּחַ *rûwach* roo'-akh; from H7306 (רוּחַ); wind; by resemblance breath, i.e. a sensible (or even violent) exhalation; figuratively, life, anger, unsubstantiality; by extension, a region of the sky; by resemblance spirit, but only of a rational being (including its expression and functions):

KJV – air, anger, blast, breath, × cool, courage, mind, × quarter, × side, spirit(-ual), tempest, × vain, (whirl-) wind(-y).

Strong's indicates this **dichotomy of the "ruach"**

- **Visibility:** wind, breath
- **Invisibility:** unsubstantiality, spirit

The KJV translators do the same. *Air, breath, wind* portray visibility, while the *spirit* represents invisibility (Yet they are the same Hebrew word throughout scripture).

The point is that the concept of the invisible is understood and is a given in the Bible, as understood with Strong's and the KJV translators.

There are modern sceptics Bible scholars or **theologians who look for physical phenomena to explain the effects of the ruach**. They're searching for physical explanations for spiritual miracles. An eclipse to explain Joshua's long day. A shooting star to describe the star that led the wise men to Christ or a hurricane to part the sea for Moses and the Israelites to cross.

Their surmisings deny the "ruach" of the Bible, the spiritual intervention to transform the physical universe.

7. Miracles are just that, the spirit acting on the material. When Jesus changed the water to wine, don't look for some physical explanation. It was a "spiritual power" that turned the physical water into physical wine. This took the "spiritual force of faith" to occur at the time, and also takes the same force of faith for us to believe, but that's what the Bible indicates.

That **the spirit creates and transforms the physical in Genesis 1** becomes part of the basis or "thesis" for understanding the rest of the Bible narrative. It is vital to settle that before moving forward with any journey into the scriptures.

It is a concept the prospective believer incorporates, or not, into their understanding. **Further reading of Genesis and the rest of the Bible is dependent on this fundamental fact.** It is a Biblical reality. One is free to accept or reject this fact, just like any other fact.

Realizing this fact is a piece of our puzzle to understand the force of God's faith in the life of a believer. **If the piece is rejected, altered, or placed in the wrong position in the puzzle, all the rest of the image will be askew.**

Right from Genesis 1:2, many Bible readers begin to blur the accurate puzzle image, and it gets blurrier and blurrier from there. This flaw creates so much confusion when it comes to Biblical understanding.

8. The Spirit of God, the "ruach" – The invisible and its relation to the visible creation.

Now we must comprehend the meaning of the **Biblical Hebrew word "move."** **God's Spirit 'moved' on the face of the waters."** **Strong's says it is to flutter and shake;**

Interestingly, in "quantum physics" scientists define a similarity in the physical realm to wave, jitter, ripples, and other such descriptions of quantum fields. Don't misunderstand, clearly, God's Spirit is **spirit. Equally clearly,** science's quantum fields, although invisible, are **physical.**

The day the Spirit "moved" (fluttered, shook over Phillip) and touched the physical Quantum realm. It is the biblical explanation of how Phillip was translated in an instant from the desert oasis to the seacoast city of Azotus. (Acts 8:39-40) The natural and the spiritual are two totally distinct environments. But like Genesis 1:2 where the Spirit moves over the waters, there's a connection between the two environments as the spiritual "touches" the natural. A physical man (with flesh, blood and bones) was instantly "zapped" 70 miles away in an instant and was seen walking along the coast.

Let's look at another instance in scripture. Recorded in scripture by Matthew, Mark and John, we are able to capture the full story of the miracle of Jesus (and Peter) walking on the water (we cover the "walking" miracle in paragraph 10). John, however, adds an additional miracle involving the Spirit touching the physical causing a "quantum leap" occurrence, not unlike Phillip's experience.

John 6:21 "Then they willingly received him into the ship: and immediately the ship was at the land whither they went."

Here are three theologians comments of this occurrence:

Adam Clarke – “the evangelist seems to speak of their sudden arrival there as extraordinary and miraculous.”

Jamieson, Fausset & Brown – “and immediately the ship was at the land — This additional miracle, for as such it is manifestly related, is recorded here alone.”

John Gill – “and immediately the ship was at the land whither they went; which was done by a divine motion; for not only the wind ceased, but another miracle was wrought; the ship was in an instant at the place whither they intended to go.”

In our connection between the Spirit of God moving on the physical waters, the SAME SHAKING MOTION of God’s Spirit is connected, via creation and transformation, to literal SHAKING QUANTUM FIELDS in the physical environment. The Spiritual in this case is managing and over-mastering the physical. And the Physical is responding to the spiritual as it is converted or changed in its substance.

This is possibly the first time you’ve ever heard this. Our explanation is **bringing into coherent completeness the SPIRITUAL and the PHYSICAL.** God can connect with the physical, and you and I, as physical beings, can connect to God.

9. We are now in “logical mode” regarding the relationship of the force of faith, the power of the Spirit of God, and the physical laws of physics. But the scriptures explain that God’s logos, comes down to us from Heaven, according to Isaiah, in seed form as God’s divine wisdom gives to us ability to comprehend the logical aspects of His word. Religion tries to separate us from the “logical,” from the reality of spiritual things.

The Greek term “*logos*” is at the origin of and the root of both “*logic*” and “*word*;” herein is the juncture or “divine link” between the spiritual and the physical being explained in Isaiah 55:9-11. God takes His divine wisdom and knowledge and converts it into seed form, plants it into our hearts, and then our hearts convert that spiritual “Word-seed” into logical knowledge and wisdom for us to utilize. (Not unlike the conversion of the video with audio into binary, then when sent and received, converted back from binary into video pixels with audio. For me, even that is too amazing to comprehend.

If we believe in the Bible, then we believe in SPIRIT. We’re here on Earth, and we believe in the PHYSICAL. But as word-of-faith believers, rationally, there must be a conjunction between the two because we believe the “theology created the science.” **Science and theology must meet and be in accordance, and at its best, in perfect harmony in recognition that the “theology” (divine) originally created the “science” (physical).**

10. That is what we have in Genesis 2:7 with the creation of man – precisely: A SPIRIT God creating PHYSICAL man. The Spirit interacts with the physical and when it touches it, the physical responds and is transformed in creation or creative miracles.

God's Spirit "moves" – FLUTTERS and SHAKES. Scientists tell us that at the minutest level of the physical universe are **quanta that are both fluttering waves and particles with the specific quality that they SHAKE and, in so doing, emit energy into the physical realm**. These miniscule shakers are known in science as energy fields. Whether we comprehend it or not, science defines technology such as "blue tooth" used by many of us daily, as interactions with quantum physics at its most basic level. The key to keep in mind is the shaking or the **VIBRATIONS of God's Spirit in God's realm and moving quanta fields in our physical domain may explain Jesus' feeling virtue going from his body as the woman with the issue of blood "touched His garment!"**

Luke 8:43-48 KJV "And a woman having an issue of blood twelve years, which had spent all her living upon physicians, neither could be healed of any, (44) Came behind him, and touched the border of his garment: and immediately her issue of blood stanch'd. (45) And Jesus said, Who touched me? When all denied, Peter and they that were with him said, Master, the multitude throng thee and press thee, and sayest thou, Who touched me? (46) And Jesus said, Somebody hath touched me: for I perceive that virtue is gone out of me. (47) And when the woman saw that she was not hid, she came trembling, and falling down before him, she declared unto him before all the people for what cause she had touched him, and how she was healed immediately. (48) And he said unto her, Daughter, be of good comfort: thy faith hath made thee whole; go in peace."

If we are ever going to walk in the realm of the Spirit and miraculous as Jesus did, we must come to understand the connection between the Spirit and the physical, and how to bring faith into physical manifestation.

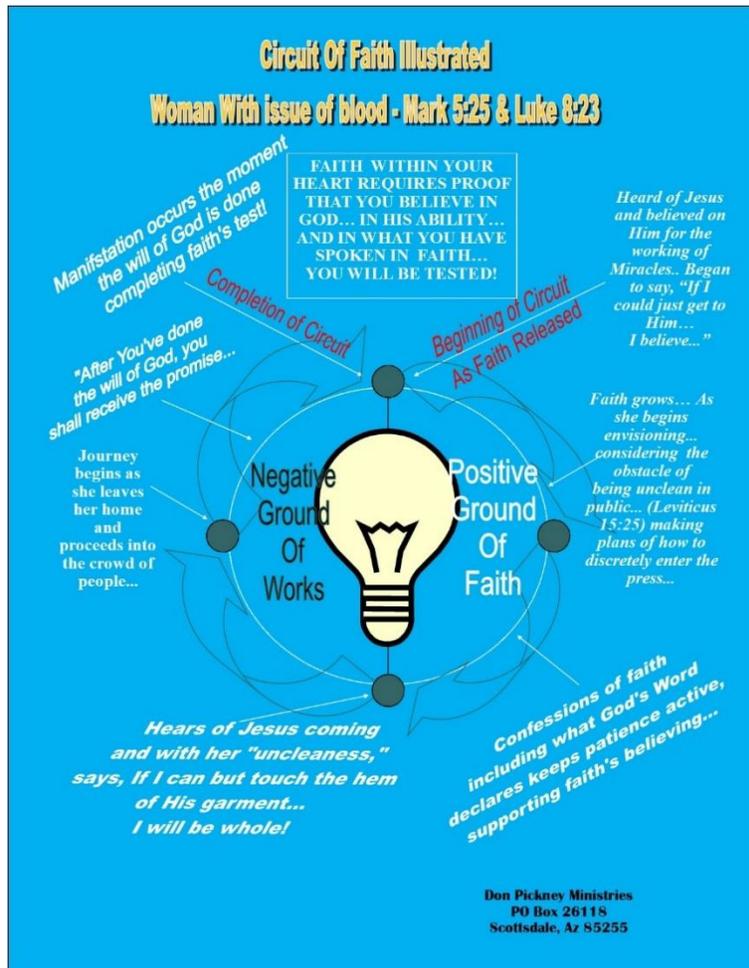

11. We see this connection between the force of faith on our part conducting spiritual power to "walk on the water," and that spiritual power from God converted into the physical ability of "walking on the water." Contrary to some people's concept of this Bible story, the scripture does not say that Jesus (and Peter for a short time) floated in the air above the water, rather they "walked on the water" (as if it was a solid mass) for a short period their actions defied the physical properties of water. If we can accept that Peter's faith in Jesus' word, "Come" caused a literal change in the laws of physics, allowing the water to be walked on, then we can realize that Jesus's words (the Spiritual) to Peter contained an energy that caused the water under Peter's feet to respond in a scientifically different manner than the remaining water in the sea of Galilee. When Peter became afraid, and began to doubt, the physical properties under Peter's feet were changed back to the normal physical values of water, and Peter began

to sink. If we can come to comprehend this, we will comprehend the real power of faith in God and His Word.

(Remember also, our earlier reference to Jesus' turning the property of water into the properties of wine.) Here again we have the actual material values of a substance changed and converted into an actual different substance. The power of the Spirit of God caused a "quantum" change in the values of the water, and they actually (and literally) became the properties of wine. It did not just look like wine, nor was it made Aof the "unreal" concept of what happens with faith and gain a consciousness of "logic" in what happens in the performance of the miraculous.

- God wants us thoroughly equipped to go into the harvest in the Day of Jehovah Tsaba. We are to do the works that Jesus did, and even greater works: to heal the sick, cast out devils, raise the dead, loose those bound by demonic influence, and do signs and wonders in the earth to open the eyes that are blinded and set the captives free.

ADDENDUM 1

ADDENDUM 2 (Practical Applications of Faith)

Faith - A Conduit for God's Eternal Power to Flow *Potential Energy vs Active Energy (Work)*

Luke 5:17 "And it came to pass on a certain day, as he was teaching, that there were Pharisees and doctors of the law sitting by, which were come out of every town of Galilee, and Judaea, and Jerusalem: and **the power of the Lord was present** to heal them."

Our key verse of this Series is:

"...The just shall live by faith. (19) Because that which may be known of God is manifest in them; for God hath shewed *it* unto them. (20) For **the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made and seen**, even his **ETERNAL POWER** and Godhead..." - Romans 1:19-20

It is important to remind ourselves that God's power is eternal (from eternity backwards (In the Beginning). It is the same creative power that raised Jesus from the dead:

Ephesians 1:18-20 "The eyes of your understanding being enlightened; that ye may know what is the hope of his calling, and what the riches of the glory of his inheritance in the saints, (19) And what *is* the exceeding greatness of his power to us-ward who believe, **according to the working of his mighty power, (20) Which he wrought in Christ, when he raised him from the dead**, and set *him* at his own right hand in the heavenly *places*."

God's power is present from eternity backwards, and has never been absent its "conservative field of energy," able to be activated with absolute consistency.

1. Electrical potential energy resembles gravitational potential energy:

<https://www.khanacademy.org/science/electrical-engineering/ee-electrostatics/ee-fields-potential-voltage/a/ee-electric-potential-voltage>

The behavior of charges in an electric field resembles the behavior of masses in a gravitational field. Just like gravitational potential energy, we can talk about electric potential energy. [*similar, but not exactly the same*] **[We will add to that another "field" of energy "God's Eternal Spiritual Power."]**

- A. A *field* is a region of space where we observe forces. Gravity, electricity, and magnetism create fields. [We will also examine this in light of God's Eternal Power as a field of energy.

- a. A field is *conservative* if an object travels in a closed path (makes a round trip) and no net work is done against the force associated with the field.
- b. Gravity is conservative. When you lift a book up, you do work for the book. If you gently lower the book back down, the book does work for you. The net amount of work is zero. You can raise and lower it a hundred times, and if the book ends up in the original height, the net amount of work is zero.
- c. For both gravity and electricity, potential energy *differences* are what's important. Wherever your book starts out, it has some potential energy. When you move the book up or down, you add or remove potential energy *relative* to where it started. For moving charges, you add or subtract electric potential energy *relative* to where the charge started.
- d. If you wonder if an object is storing potential energy, take away whatever might be holding it in place. If the object moves, it was storing potential energy. An apple falls from a tree and conks you on the head. It had potential energy.

Energy, be it electrical, gravitational, magnetic or God's Eternal power may be described in "fields" of energy, each representing a separate and distinct type of energy.

For the sake of this study, we will concentrate on the fourth "field" of energy: "**God's Eternal Power and How it Relates to Conduits of Faith.**"

Using the example below, we can study God's power. Again, let's rehearse our key verse:

"For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made and seen, even his eternal power..." - Romans 1:20

Continuing our study from the website above:

A *field* is a region of space where we observe forces. Gravity, electricity, and magnetism create fields.

A field is *conservative* if an object travels in a closed path (makes a round trip) and no net work is done against the force associated with the field.

Gravity is conservative. When you lift a book up, you do work on the book. If you gently lower the book back down, the book does work on you. The net amount of work is zero. You can raise and lower a hundred times, and if the book ends up in the original height, the net amount of work is zero. If you move the book horizontally, the amount of work is also zero, because there is no opposing force in the horizontal direction.

A static electric field is conservative. No matter what path a charged object takes in the field, if the charge returns to its starting point, the net amount of work is zero.

Electrical potential energy resembles gravitational potential energy

The behavior of charges in an electric field resembles the behavior of masses in a gravitational field. Just like gravitational potential energy, we can talk about electric potential energy.

[similar, but not exactly the same]

For both gravity and electricity, potential energy *differences* are what's important. Wherever your book starts out, it has some potential energy. When you move the book, you add or remove potential energy *relative* to where it started. For moving charges, you add or subtract electric potential energy *relative* to where the charge started.

If you wonder if an object is storing potential energy, take away whatever might be holding it in place. If the object moves, it was storing potential energy. An apple falls from a tree and conks you on the head. It had potential energy. Let go of a charge in an electric field; if it shoots away, it was storing electric potential energy.

2. God's Eternal Power "field" is "conservative energy." Here is an example:

Genesis 1:2-3 "And the earth was without form, and void; and darkness *was* upon the face of the deep. And the Spirit of God moved upon the face of the waters. (3) And God said, Let there be light: and there was light."

Notice, God's Eternal power was on "the face of the deep," but it was only "potential energy" until God's Word activated its creative ability to create: "Light be... and there was light." God's word was like "flipping a light switch," causing a "conservative field of energy" to become activated to produce "work."

Remember again from our key verse: "**the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made and seen, even his eternal power...**" Romans 1:20

A. Now imagine, instead of "power available to create the universe," that same power was enlisted to heal a sick one:

Luke 5:17 "And it came to pass on a certain day, as he was teaching, that there were Pharisees and doctors of the law sitting by, which were come out of every town of Galilee, and Judaea, and Jerusalem: and **the power of the Lord was present** to heal them."

The same as at the Genesis creation, the power was “present” but had to be activated like flipping a light switch when God’s Word was spoken.

B. Let’s examine the Luke miracle further:

Luke 5:18-26 “And, behold, men brought in a bed a man which was taken with a palsy: and they sought *means* to bring him in, and to lay *him* before him. (19) And when they could not find by what *way* they might bring him in because of the multitude, they went upon the housetop, and let him down through the tiling with *his* couch into the midst before Jesus. (20) And **when he saw their faith, he said unto him, Man, thy sins are forgiven thee.** (21) And the scribes and the Pharisees began to reason, saying, Who is this which speaketh blasphemies? Who can forgive sins, but God alone? (22) But when Jesus perceived their thoughts, he answering said unto them, What reason ye in your hearts? (23) **Whether is easier, to say, Thy sins be forgiven thee; or to say, Rise up and walk? (24) But that ye may know that the Son of man hath power upon earth to forgive sins, (he said unto the sick of the palsy,) I say unto thee, Arise, and take up thy couch, and go into thine house.** (25) And **immediately he rose up before them, and took up that whereon he lay, and departed to his own house, glorifying God.** (26) And they were all amazed, and they glorified God, and were filled with fear, saying, We have seen strange things to day.”

C. God gave Rev. Kenneth E. Hagin the “secret” to the Woman with the Issue of blood being healed when she touched Jesus’ garment. The essence of the revelation of that “secret” was in God’s Words to him:

“Anyone can have anything they desire of Me or to be done of me by following the 4 steps of faith which brother Hagin called, “**How to Write Your Own Ticket with God**”:

1. Say it
2. Do it
3. Receive it
4. Tell it

3. Faith for God’s power (Eternal Power) is always released through spoken words coming from a belief of the heart:

Mark 11:22-23 “And Jesus answering saith unto them, Have faith in

God. (23) For verily I say unto you, That whosoever shall say unto this mountain, Be thou removed, and be thou cast into the sea; and shall not doubt in his heart, but shall believe that those things which he saith shall come to pass; he shall have whatsoever he saith."

4. God's "Eternal Power" (as referenced in Romans 1:20) is not something that comes and goes with "winds of revival," or "special moves of the spirit," etc. God's power is Eternal and has remained available with "conservative energy" to become active for whosoever believers. Faith activated God's power for Enoch to be translated. Hebrews is clear:

Hebrews 11:5 "By faith Enoch was translated that he should not see death; and was not found, because God had translated him: for before his translation he had this testimony, that he pleased God."

The same faith that Hebrews 11:2 says God used to create the Earth is the same faith that Enoch used to not see death and received immortality and was "taken" to Heaven in a resurrected body.

5. Why God Established His great "Eternal Power" to Flow Through the Avenue of Faith -

- A. Imagine attempting to plug in your electric hair dryer directly into the National Electric Grid, or perhaps the High Voltage Substation in your neighborhood:

Transmission lines carry electricity long distances from power stations at 345,000 volts. Sub-transmission lines branch off from transmission lines to large industrial, commercial and residential areas at 69,000 volts. Local transmission lines then branch off from sub-transmission lines to service districts and neighborhoods at **13,800 volts**, the normal voltage carried by line to the transformer installed to service a neighborhood of houses.

The "transformer" is used to reduce the voltage to 240 volt systems required in the normal residential home. At the residential electrical panel, with the use of breakers for safety, the home may use 240 or 120 voltage power.

- B. Now, finally, picture your heart as the "transformer," and faith as the conduit. We tap into God's unlimited Eternal Power source (Jesus said, Have faith in God - Mark 11:22), with unlimited power (voltage), and our own heart as the transformer that determines the actual voltage of active flowing of that power to our individual circumstance.
